NORFOLK, VA., October 19.—(Special.) Portsmouth has another sensation, caused by the arrest of Mr. C. C. NEW YORK, October 19.-The undertone of to-day's market was one of strength throughout. The volume of transactions was not large, and there were prolonged periods of dulness when trading was practically stagnant, but the operations of important interests which were prominent in the late bull market were manifest. The tone of yesterday's market had apparently determined large professional operators to undertake a movement for a rise today. The break in the price of Pullman, owing to the news of the death of the head of the company, halted the operations of this element for a time, but the firmness of the general list, in the face of the break in Pullman, did not last long, and the strong support which was offered the Pullman stock encouraged the bull operators to renew their campaign in an aggressive way late in the afternoon.  CHICAGO PRODUCE MARKET.

CHICAGO. October 19.—The most notable change in the wheat market 19-day was an advance of 1-2c. per bushel in May, while December declined 1-8c. That represents the style of the day's operations of the bull clique. They appeared to be sellers of December every time it got up to 91-4c., and buyers of May on all weak spots. At the close May was only 13-4c. below December, instead of 3c., as it was Saturday. Corn was heavy under continued liquidation by small holders, and closed 1-26-5c. lower. Oats declined 3-8c. Provisions were weak, under renewed yellow-fever reports, and declined 56/15c.

Leading futures ranged as follows:
